Dear Mr. Evering:

Please be advised that the Commission is in receipt of your Motion for Expedited Review of Application in the Syniverse Technologies, Inc. Docket noted above. Our Docketing Department has reviewed the file in the case and has noted that the prefiled testimony of David J. Robinson has no verification attached to it. Unfortunately, the Commission cannot consider your Motion for Expedited Review until you file a verified version of the Robinson testimony. This would allow the Commission to consider the testimony without a live appearance at a hearing. Thank you for your consideration in this matter.

Regards,

David Butler
Hearing Examiner
